PEC HUB

Abstract

"PEC Hub" is web application to provide a platform to all the students of PEC college to join, collaborate, discuss and share among themselves and respective department's teachers or supervisors to seek help and provide help in their academic advancement. We used React JS, a JavaScript library for users building User Interface (UI), Express.js, a flexible Node.js web development framework, Node.js, a server environment and MongoDB, a document-oriented database for building our web application.
